MEDIA: Drawing and Pencil Crayon/Pastel

EXPERIENCE LEVEL: Any

FEE: \$50 members/\$55 non-members (*materials are not supplied*)

Learn how to see things differently. Understand why we confuse what we think we see with reality and how this process affects our ability to draw. If you bring an open mind, you can draw successful images at any age. This one-day drawing workshop is also suitable for painters - emphasis will be placed on composition, perception, the principles of line and design, proportion, value and levels of depth.

Watercolour Backgrounds - focus on composition and depth

DATE: Monday February 10th, 10:00am-4:00pm

MEDIA: Watercolour (other painting media are acceptable, incl. drawing)

EXPERIENCE LEVEL: Some experience required

FEE: \$50 members/\$55 non-members (*materials are not supplied*)

Often successful paintings are a result of a dynamic background. Learn about positive and negative space and how the subject and space are interrelated by using a variety of techniques to develop interesting backgrounds. This workshop will be taught in watercolour but other painting media are acceptable including drawing.

How to Get from Better to Great! - critique your work

Bring artwork in progress or artwork you would like to develop into other pieces and get positive feedback on composition, colour, value, line and subject.
